

3.15 Harvest Mailboxes:

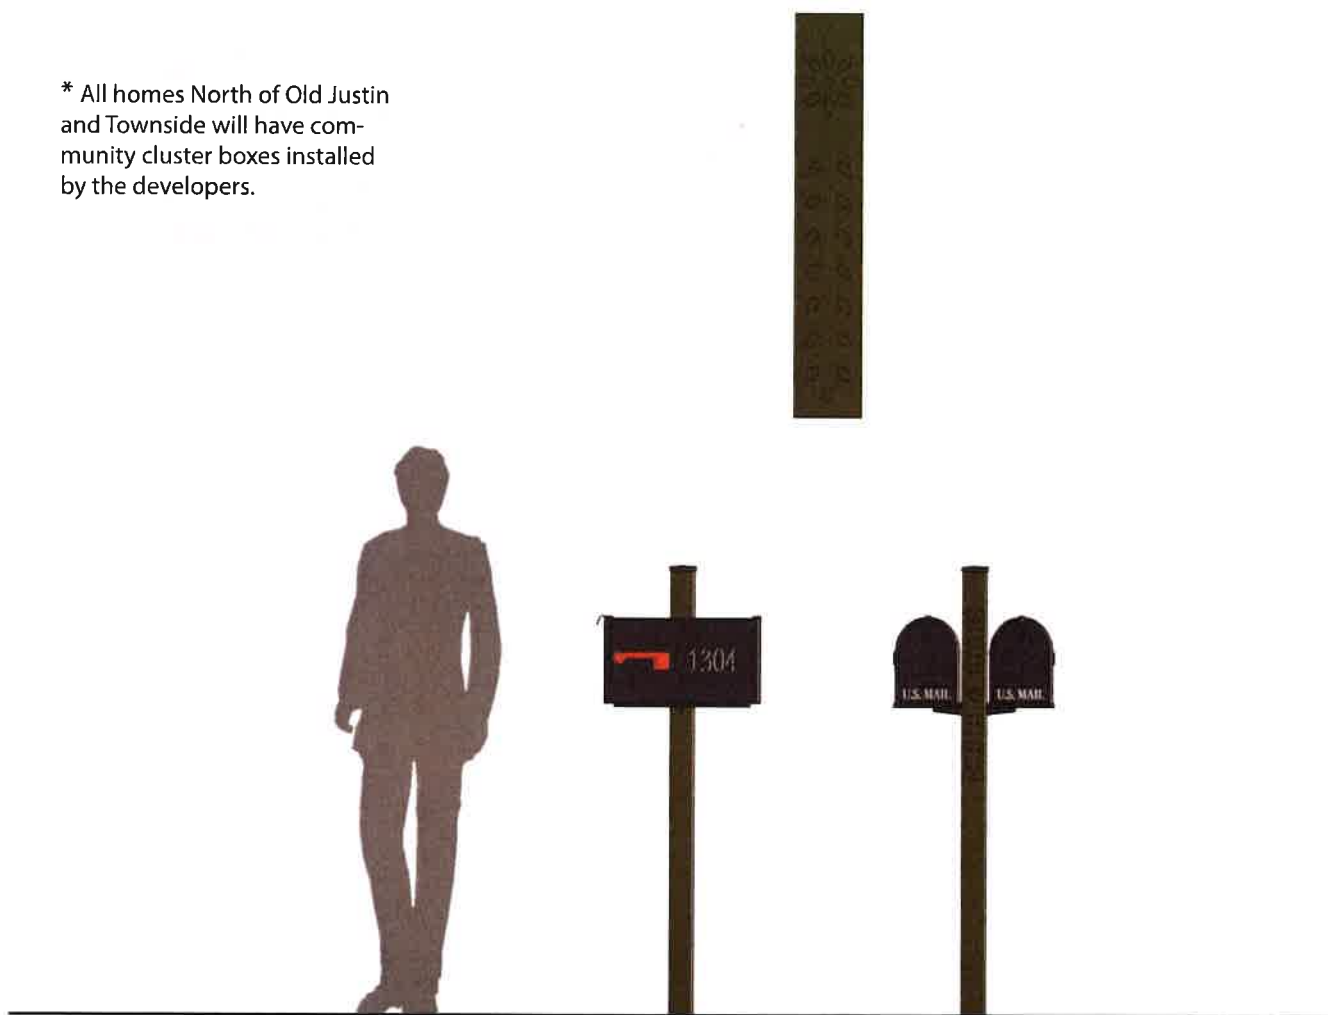

The Builder must use the standard Harvest mailbox detail provided in these guidelines, unless otherwise approved in writing by the Developer, and shall be installed prior to the sale of any home.

In keeping with the community's rural values, U.S. mail will be delivered to each home at Harvest. The steel mailboxes will be constructed by Brandon Industries - the Classic Oversized Rural Mailbox (model# M8) - in black.

The mailbox shall be installed on 6" square tubular steel post on 18" diameter concrete foundation 30" deep, attached with galvanized saddle and two (2) 1/2" galvanized all-threads with nuts and lock washers.

The mailbox shall be attached to two 4"x4"x26" tubular steel beams with four set screws on inside with the beams attached to post with two galvanized carriage bolts. The mailbox shall have the address shown with 2" height stenciled numbers centered on face of mailbox door.

* All homes North of Old Justin and Townside will have community cluster boxes installed by the developers.
