

# SPRING GARDENING

HARVEST HOA MEETING, APRIL 2, 2022

# Tomatoes

For containers, choose a tomato variety that has a determinate growth habit!

# Peppers

Peppers are not only edible, but they provide beauty for your porch or patio!

## Lettuce or Spinach

- ▶ Always start your lettuce or spinach from seed. It can grow anywhere - vertical garden, pots or hanging baskets!

Choose a patio snacker type cucumber seed. They provide a small but mighty compact vine with continuous harvest.

# Cucumbers

# Herbs

- ▶ Be creative in designing your own container for growing herbs inside or outside your home to fit your space!

# Okra

► For container gardening, choose a dwarf variety okra that does not grow over 5 ft. unless you have a large space.

Squash can be grown in large containers or for fun, build an arch!

# Squash

## CREATIVE IDEAS FOR CONTAINERS

## NEW VARIETIES OF SHRUBS FOR YOUR YARD!

THESE NEW SHRUBS VARIETIES OF OLD FAVORITES PROVIDE INTEREST  
AND COLOR FOR YOUR LANDSCAPE!
